In 2011 Paul still leads the way. July saw Paul voted the 'Best Live Act' of the last year at the prestigious UK Nordoff Robbins Silver Clef Awards. It was a public vote

and Paul beat acts from a shortlist of 30 including Muse, Green Day, Jay Z, Pink and Black Eyed Peas. In the same month, Paul and his band of nearly ten years (Paul 'Wix' Wickens, Brian Ray, Rusty Anderson and Abe Laboriel Jr.) embarked on their all new 'On The Run' tour. The tour kicked off with a two-night run at New York's iconic Yankee Stadium and then took in six massive shows in North America and Canada. The unrivaled feedback and reviews backed up the 'Best Live Act' Award as well as cementing Paul's reputation as one of the world's greatest performers ever!

OFC Comments: This is a must show to see! Paul played a set list extending close to three hours when he was in America - all of the Beatles and Wings favorites! McCartney defies all age barriers and at 69 has the most incredible stage energy and versatility unrivaled by any other act on the tour scene!
