

Thank you for checking out **OFC- Official Fan Club - portal to the world of your favorite performers!**

2012 Winner! Ticket Summit Enterprise Fan Service Award for *OFC's extraordinary services for fans of live music!*

The music website launched in August 2008 is simply to serve the fans and performing artists and bands. The OFC goal is to keep the website pure and "official" in its content. OFC site provides fans with official fan club links, info, news and fosters reciprocal synergy for fans and the bands and artists. OFC provides ticket presales updates, band photos, artist interviews, reviews of albums and tours.

OFC offers RSS syndicated feeds, Twitter and Facebook application integration. OFC Official Fan club is an altruistic website and a portion of profits or proceeds will be donated to artist favorite charities. OFC firmly believes that the survival of music will carry on through the worldwide web. The fan club websites are an artistic expression of the bands and artists. The splendor and creativity of the websites is the new age evolution of the nostalgic record album covers which flourished in the late twentieth century. It was at one point thought that perhaps the album cover artwork had perished or diminished with the advent of compact technology. But to our amazement, the beloved albums have evolved and proliferated into a paradigm shift of music, art, collaboration, services and technology conveyed through the web!

The OFC website is music industry agnostic and all-inclusive in providing information and website links as long as it's "official." Please send your comments, feedback or support questions to "info@officialfanclub.net."
